Bangalore	0.55	2	0.04	2	0.34

Bert final Clusters:

Cluster 1: Darshan and religious practices

Cluster 2: Food and cooking

The words in the first cluster are mostly related to Darshan, a Hindu religious practice of visiting a deity, and other religious terms like "ISKCON," "prasadam," and "mandir." The words in the second cluster are mostly related to food, such as "food," "recipe," "restaurant," and "cook."

It's also possible that the two clusters represent different parts of a pilgrimage to Vrindavan, a holy city for Hindus. In this case, the first cluster could be called "Religious activities in Vrindavan" and the second cluster could be called "Food and culture in Vrindavan."

[illegible]

Cluster 2: Travel and tourism

The words in the first cluster are mostly related to food, such as "food," "restaurant," "cuisine," "dish," and "eat." The words in the second cluster are mostly related to travel, such as "travel," "tourism," "city," "visit," and "place."
